Saint-Gobain's booth attracted many purchasing managers, engineers and professionals from dispenser manufacturers, cleaning chemical manufacturers and laundry factories who not only expressed great interest in our products but also made TYGON® Chemical and TYGON® A-60-G enquiries. They shared their technical challenges with their current pump tubing which appear to have very short service life. TYGON® pump tubing's consistent flow rate and high chemical compatibility impressed purchasing managers who showed great desire to try the products. Many have already planned to place orders to replace their existing tubing.
